

December 21, 1959

Dr. L. L. Cavalli
18, Via Fatebenesorelle
Milano, Italy

Dear Luca:

Some more arrangements on my trip next month.

The week of January 11th I will be in Nice and could be
reached C/o The First International Space Science Symposium
Centre Universitaire Méditerranéen
Boulevard des Anglais
Nice, France

I'm planning to fly from Nice to Milan by the late afternoon
flight on Friday, January 15th. I could stay over until Sunday
afternoon before returning to San Francisco via London.

I may try to call you from Nice.

Have you any further reaction to the suggestion that you
and the Magnis meet me in Nice? Or would you prefer a more
concentrated session nearer the laboratories?

Esther and I will be going to Mexico over the New Year but
will be back by January 5th.

I should remark that I have not received any written
confirmation from Giovanni after our conversation here. I
hope this does not indicate any unexpected difficulties.

As ever and with all the best for the New Year to all
the Cavallis,

Joshua Lederberg
